Reply to Office Action dated 8 April 2005

REMARKS/ARGUMENT

This case has been carefully reviewed and analyzed in view of the Official Action dated 8 April 2005. Responsive to the objections and rejections made in the Official Action, Claims 1 - 8 have been amended to clarify the language thereof.

In the Official Action, the Examiner objected to the Specification due to informalities therein. Accordingly, the Specification and Abstract have been amended and a Substitute Specification and Abstract prepared to replace the Specification and Abstract as filed. The Substitute Specification and Abstract represent clean copies of the amended Specification and Abstract in compliance with 37 C.F.R. § 1.125. The Substitute Specification and Abstract include the same changes are indicated in the marked-up copy of the Specification and Abstract provided in the "AMENDMENTS TO THE SPECIFICATION." It is believed that the subject matter disclosed by the Substitute Specification was originally disclosed in the Specification and Claims, as filed, and the accompanying drawing figures. No new matter has been added by the amendment.

In the Official Action, the Examiner rejected Claims 1 - 9 under 35 U.S.C. § 112, second paragraph, as being generally narrative and indefinite. However, the Examiner stated that Claims 1 - 9 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. § 112.

Claims 1 - 8 have been amended to correct the language thereof. It is now believed that the claims particularly point out and distinctly claim the subject matter that Applicant regards as the invention.

For all the foregoing reasons, it is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.
